Customer summary

IMG-20260302-WA0001.jpg · Evidence ID: E0009 · Case: RV-SAMPLE-001

No issues found

The file was hashed and checked. The checks applied found no issues.

What we did

Each file was opened read-only and hashed in a single pass with the selected algorithms. Chat exports were read into one model (participants, conversations, messages, attachments), local times converted to UTC with the examiner's time zone, and written as RSMF 2.0 files, one per conversation per day, then checked against the RSMF 2.0 schema and read back. Every action was written to a hash-chained audit log.

What we found

- File belongs to a chat export. This file is part of the export WhatsApp Chat with Ana Ruiz.txt (media or attachment) and was converted with it.

Digital fingerprint

This fingerprint identifies the exact content of the file. Any change, even of one character, would produce a different value.
