Customer summary

original.pdf · Evidence ID: E0020 · Case: RV-SAMPLE-001

No issues found

The file was hashed and checked. The checks applied found no issues.

Document history

The document was saved once, with a PDF programming library; the file keeps no record of later changes. This information comes from the document itself and is not proof on its own.

What we did

Each file was opened read-only and hashed in a single pass with the selected algorithms. PDF files were then parsed without being modified: every saved revision, its dates and producer, digital signatures, fonts and producer fingerprints were recorded, and pages of consecutive revisions were compared visually. Every action was written to a hash-chained audit log.

What we found

None

Digital fingerprint

This fingerprint identifies the exact content of the file. Any change, even of one character, would produce a different value.

sha256	`7446db6b551798dc8389da3e84e90bc5caf40c3008b71fc19e56afd13164c743`
